

JANUARY 10, 1956

Important Notice to Farmers!

Although the initial enrollment period for the 1956 Agricultural Conservation Program has closed, each county A.S.C. office is still accepting requests for practices under the 1956 A.C.F. In those areas where spring seeding of pastures are made and where grasses and legumes are needed in the spring in small grain, those farmers who have need for it are eligible for the permanent vegetative cover practice designated as A-2 or additional rotation cover practice designated as A-3 and should file requests with the county committee as soon as possible.

Thousands of People Are Using It For Making Alfalfa Tea

SOLD FROM COAST TO COAST

As a matter of information, many dealers sell alfalfa seed for agricultural purposes, treated with Mercury Compounds, which is highly beneficial to crops but is poisonous to human beings. Play safe and order only "Wood's Hollybrook Brand" Alfalfa Seed. Thousands of customers are ordering regularly for making alfalfa tea. Packed in double box to prevent contamination. Directions for making alfalfa tea with each box.

"Wood's Hollybrook Brand" Alfalfa Seed is the very finest bright golden seed, untreated, of the highest quality, testing approximately 100% pure. For many years Alfalfa for grazing, hay and

silage used for livestock has been the outstanding crop throughout the country. It makes one of the finest crops, rich in proteins, minerals and Vitamins A and D.

1-lb. box, \$1.95; 5 boxes, \$9.00, postpaid
